ABPI CODE OF PRACTICE
for the
PHARMACEUTICAL INDUSTRY 2021

together with the

PRESCRIPTION MEDICINES
CODE OF PRACTICE AUTHORITY
Constitution and Procedure

THE PRESCRIPTION MEDICINES CODE OF PRACTICE AUTHORITY

The Prescription Medicines Code of Practice Authority (PMCPA) was established by the Association of the British Pharmaceutical Industry (ABPI) in 1993 to operate the Code of Practice for the Pharmaceutical Industry independently of the Association itself.

Complaints should be submitted to the Director of the Prescription Medicines Code of Practice Authority, 7th Floor, Southside, 105 Victoria Street, London SW1E 6QT, telephone 020 7747 8880, email complaints@pmcpa.org.uk

Complaints made under the Code are considered by the Code of Practice Panel and, where required, by the Code of Practice Appeal Board. Reports on cases are published by the Authority and are available on request and on the Authority's website www.abpi.org.uk

The PMCPA is a division of the ABPI which is a company limited by guarantee registered in England and Wales, No 09826787. Registered office: 7th Floor, Southside, 105 Victoria Street, London SW1E 6QT.

ABPI PRINCIPLES

The following principles for pharmaceutical companies are seen by the ABPI as key to how we operate as an industry and build trust and enhance our reputation. Companies are expected to implement and work to embed these into their organisation.

Patients are at the heart of our industry. We aspire to ensure that everything we do will ultimately benefit patients. Our primary contribution to society is to research and develop high quality medicines and to encourage their appropriate and rational use. Patient safety is paramount.

Ethical relationships with stakeholders are critical to our mission of helping patients, providing the appropriate use of our medicines and ensuring the appropriate and timely exchange of scientific information.

An important guide for such ethical relationships is adherence to the ABPI Code of Practice which, among other things, sets the standards and drives an ethical culture in the industry. This is delivered through self-regulation. Our industry, and the individuals within it, are committed to supporting that culture, working within both the letter and the spirit of the ABPI Code and all relevant laws and regulations.

A ,

ABPI CODE OF PRACTICE FOR THE PHARMACEUTICAL INDUSTRY INTRODUCTION

A U

The pharmaceutical industry in the United Kingdom is committed to benefiting patients by operating in a professional, ethical and transparent manner to ensure the appropriate use of medicines and

interpreted as an attempt to gain preferential treatment or would contravene your professional code of practice'.

Patient organisations are likely to be covered by Charity Commission rules as well as their own codes. The pharmaceutical industry takes note of all relevant codes and guidance as well as the ABPI Code.

The industry recognises that transparency is an important means of building and maintaining confidence. The operation of the Code, including the complaints procedure, is a demonstration of the industry's commitment to transparency as are the requirements to declare pharmaceutical company involvement in activities and materials and the publication of detailed reports of cases considered under the Code. The industry's global agreement to disclose certain clinical trial data is another example of the industry's commitment to transparency. Companies also have to publish the summary details and results of non-interventional studies as well as the monetary value of certain support to patient organisations.

Other transparency changes, effective in 2012 and 2013, included disclosure of the total amount of fees paid to consultants for certain services and the total amounts paid to sponsor attendance at meetings organised by third parties. As set out in the 2014 Code, starting in 2015 transparency was extended in relation to disclosure of fees and sponsorship provided to health professionals, other relevant decision makers and healthcare organisations, including naming the recipients in many instances.

The Code requires disclosure of donations, grants and sponsorship to patient organisations and when contracting with patient organisations or individuals representing patient organisations to provide services for companies. Certain contracted services provided by the public, including patients and journalists, will also now be disclosed on an annual basis; this will start with 2022 data to be disclosed by 30 June 2023.

In each case where a breach of the Code is ruled, the company concerned must give an undertaking that the practice in question has ceased forthwith and that all possible steps have been taken to avoid a similar breach in the future. An undertaking must be accompanied by details of the action taken to implement the ruling. At the conclusion of a case, a detailed case report is published.

Additional sanctions are imposed in serious cases. These can include:

- the audit of a company's procedures to comply with the Code, followed by the possibility of a requirement for the pre-vetting of future material
- recovery of material from those to whom it has been given
- the issue of a corrective statement
- a public reprimand
- advertising in the medical, pharmaceutical and nursing press of brief details of cases in which companies were ruled in breach of Clause 2 of the Code, were required to issue a corrective statement or were the subject of a public reprimand
- suspension or expulsion from the ABPI.

A

The Prescription Medicines Code of Practice Authority (PMCPA) arranges for advertising and meetings to be regularly monitored.

The PMCPA also provides informal guidance about the Code and its operation.

The commitment of the pharmaceutical industry to bringing high quality and effective medicines and vaccines to patients supports the UK's health and economy.

Pharmaceutical companies invest over £4.5bn a year in researching and developing new products, for the benefit of patients.

A

The Association of the British Pharmaceutical Industry exists to make the UK the best place in the world to research, develop and use new medicines. It represents companies of all sizes which invest in discovering the medicines of the future.

The ABPI represents companies which supply more than 80% of all branded medicines used by the NHS and are researching and developing the majority of the current medicines pipeline.

The Code has been regularly revised since its inception in 1958 and is drawn up in consultation with the British Medical Association, the Royal Pharmaceutical Society, the Royal College of Nursing, the Medicines and Healthcare Products Regulatory Agency of the Department of Health, the Competition and Markets Authority and the Serious Fraud Office. Anyone is welcome to send suggestions for amendments or additions to the Code to the PMCPA.

It is a condition of membership of the ABPI to abide by the Code in both the spirit and the letter. The Code applies to both members and affiliate members of the ABPI. Companies which are not members of the ABPI may give their formal agreement to abide by the Code and accept the jurisdiction of the PMCPA, and over sixty have done so. Thus the Code is accepted by virtually all pharmaceutical companies operating in the UK.

A

The Code is administered by the PMCPA, which is responsible for the provision of advice, guidance and training on the Code as well as for the complaints procedure. The PMCPA operates independently of the ABPI itself. The relationship between the PMCPA and the ABPI is set out in a protocol of agreement. Financial information about the PMCPA is published in its annual report.

PMCPA publications can all be found on its website, www.pmcpa.org.uk, or are supplied on request.

Complaints under the Code are considered by the Code of Practice Panel and, where required, by the Code of Practice Appeal Board. Reports on completed cases are published by the PMCPA on its website. The PMCPA also publishes a list of ongoing cases on its website.

Complaints should be submitted to the Director of the Prescription Medicines Code of Practice Authority, 7th Floor, Southside, 105 Victoria Street, London, SW1E 6QT, telephone: 020 7747 8880, email: complaints@pmcpa.org.uk.

1.13

1.23 A company can provide support for individual health professionals or other relevant decision makers to attend events/meetings. **1.23** in this context is the provision of a financial contribution, in whole or in part, whether paid directly or indirectly to individual health professionals or other relevant decision makers to attend events/meetings.

1.24 **1.24** means a legal person/entity or individual that represents a company or interacts with other parties on behalf of a company or relating to a company's medicine, such as distributors, wholesalers, consultants, contract research organisations, professional congress organisers, contracted sales forces, market research companies, advertising agencies, media buyers, providers of services related to events, public relations services, non-clinical services, non-interventional studies management services etc.

Companies are responsible under the Code for the acts and omissions of their third parties which come within the scope of the Code, even if they act contrary to the instructions which they have been given.

1.25 (1.10) **1.25** means a direct or indirect transfer of value, whether in cash, in-kind or otherwise, made, whether for promotional purposes or otherwise, in connection with the development or sale of medicines. A direct transfer of value is one made directly by a company for the benefit of a recipient. An indirect transfer of value is one made on behalf of a company for the benefit of a recipient or through an intermediate and where the company knows or can identify the recipient that will benefit from the transfer of value.

The following are not transfers of value for the purposes of the Code:

- transfers of value that are solely related to OTC medicines
- ordinary course purchases and sales of medicines by and between a company and a health professional or a healthcare organisation
- samples of medicines provided in accordance with Clause 21
- transfers of value provided in accordance with Clauses 10.4, 10.5 and 19.2
- assistance provided to health professionals and other relevant decision makers in accordance with Clause 10.1.

U

2

Activities or materials must never be such as to bring discredit upon, or reduce confidence in, the pharmaceutical industry.

3

- 3.1 (3.1) A medicine must not be promoted prior to the grant of the marketing authorisation which permits its sale or supply.
- 3.2 (26.1) Prescription only medicines must not be advertised to the public. This prohibition does not apply to vaccination and other campaigns carried out by companies and approved by the health ministers.
- 3.3 (29) When an undertaking has been given in relation to a ruling under the Code, the company concerned must ensure that it complies with that undertaking.
- 3.4 (1.11) Companies must comply with all applicable codes, laws and regulations to which they are subject.
- 3.5 Gifts for personal benefit (such as sporting or entertainment tickets, social courtesy gifts) are prohibited and must not be given, either directly or indirectly, to any individual health professional, other relevant decision maker or individual associated with a healthcare organisation or patient organisation.

Providing or offering cash, cash equivalents or the provision of services that confer a personal benefit to the recipient is prohibited.

5

- 5.1** (9.1) High standards must be maintained at all times.
- 5.2** (9.2) All material and activities must recognise the special nature of medicines and respect the professional standing or otherwise of the audience to which they are directed and must not be likely to cause offence.
- 5.3** (9.3) The name or photograph of a member of a health profession must not be used in any way that is contrary to the conventions of that profession.
- 5.4** (9.7) Extremes of format, size or cost of material must be avoided. Informational or educational materials must be inexpensive, directly relevant to the practice of medicine or pharmacy and directly beneficial to the care of patients.
- 5.5** (9.10) Material relating to medicines and their uses, whether promotional or not, and information relating to human health or diseases which is sponsored by a pharmaceutical company or in which a pharmaceutical company has any other involvement, must clearly indicate the role of that pharmaceutical company.

The only exception to this is market research material if it is such that the name of the company involved is not required to be stated in any way, whether in writing or otherwise.

6.3

7

U

- 7.1** (10.2) Quotations from medical and scientific literature or from personal communications must be faithfully reproduced, accurately reflect the meaning and current views of the author and otherwise comply with the Code. The precise source of the quotation must be identified.
- 7.2** (10.3) Quotations relating to medicines taken from public broadcasts, for example, on radio and television, and from private occasions, such as medical conferences or symposia, must not be issued without the formal permission of the speaker.

- 8.1** (14.1) Promotional material must not be issued unless its final form, to which no subsequent amendments will be made, has been certified by one person on behalf of the company in the manner provided for by this clause, subject to the provisions of the supplementary information to this clause where relevant. This person must be a registered medical practitioner or a pharmacist registered in the UK or alternatively, in the case of a product for dental use only, a UK registered dentist.

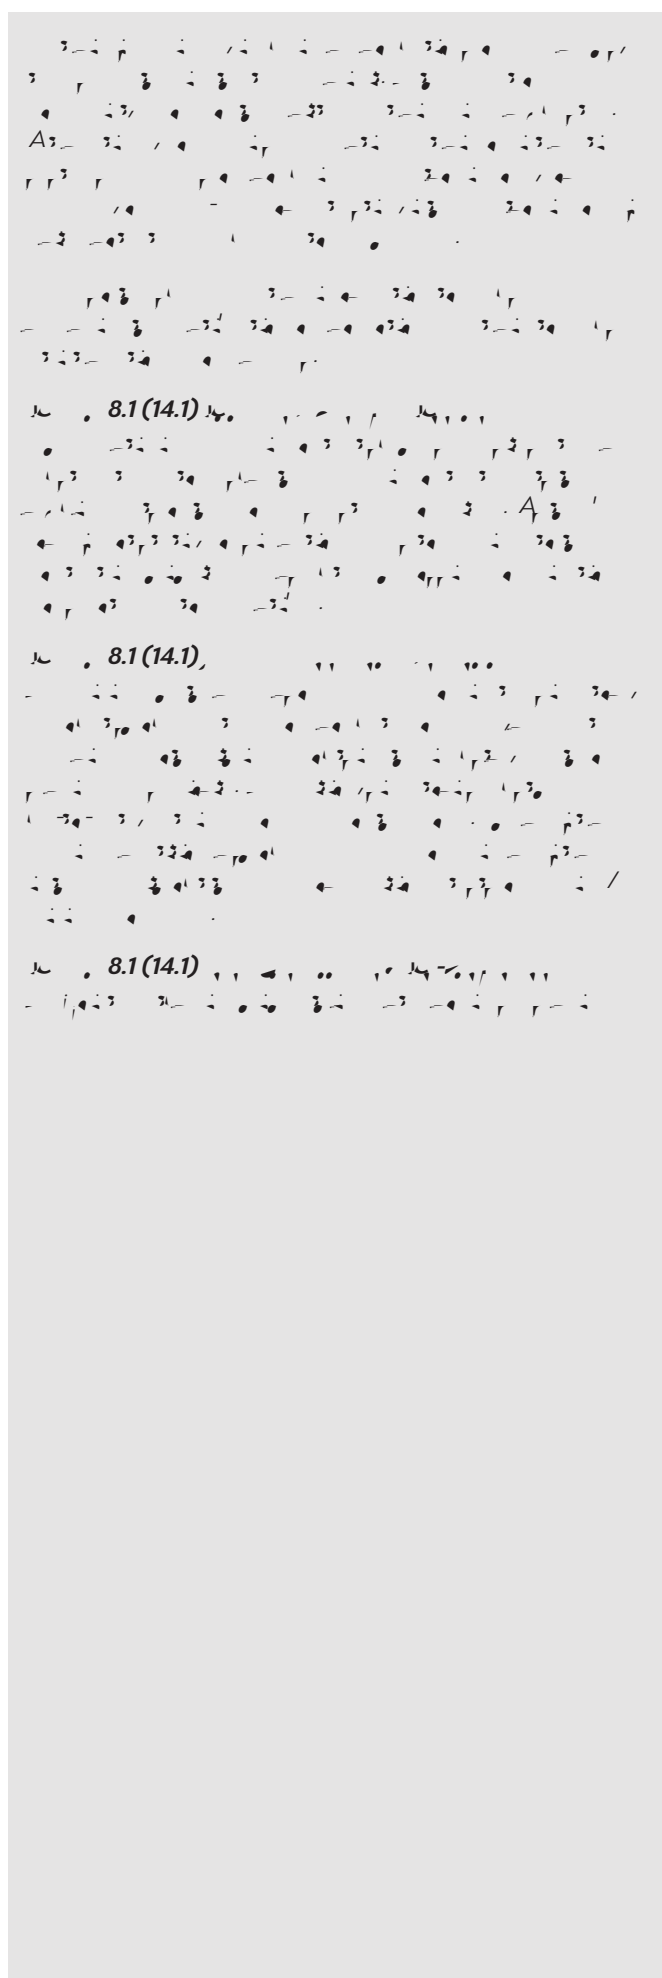

The person certifying on behalf of the company must not be the person responsible for developing or drawing up the material.

- 8.2** (14.2) All events/meetings involving travel outside the UK, unless the company's only involvement is to support a speaker to present at the meeting, must be certified in advance as set out in Clause 8.1 or by an appropriately qualified person signatory (AQP signatory). That person does not need to be either a registered medical practitioner or a pharmacist registered in the UK.
- 8.3** (14.3) The following must be certified in advance in a manner similar to that provided for by Clause 8.1:
- educational material for the public or patients issued by companies which relates to diseases or medicines but is not intended as promotion for those medicines
 - material relating to working with patient organisations as described in Clause 27 and its supplementary information
 - material relating to collaborative working as described in Clause 20 and its supplementary information
 - material and items for patient support whether provided directly to patients or to health professionals to be passed on to patients as described in Clauses 19.2, 26.3 and associated supplementary information
 - the written agreement for donations and grants, including where relevant internal company and service provider instructions as described in Clause 23 and its supplementary information
 - (25.2) protocols relating to non-interventional studies.
- 8.4** (14.4) The names of those nominated as signatories as set out in Clauses 8.1 and 8.2, together with their qualifications, must be notified in advance to the Advertising Standards and Outreach Unit, Vigilance and Risk Management of Medicines Division of the Medicines and Healthcare products Regulatory Agency (MHRA), and to the Prescription Medicines Code of Practice Authority (PMCP2).

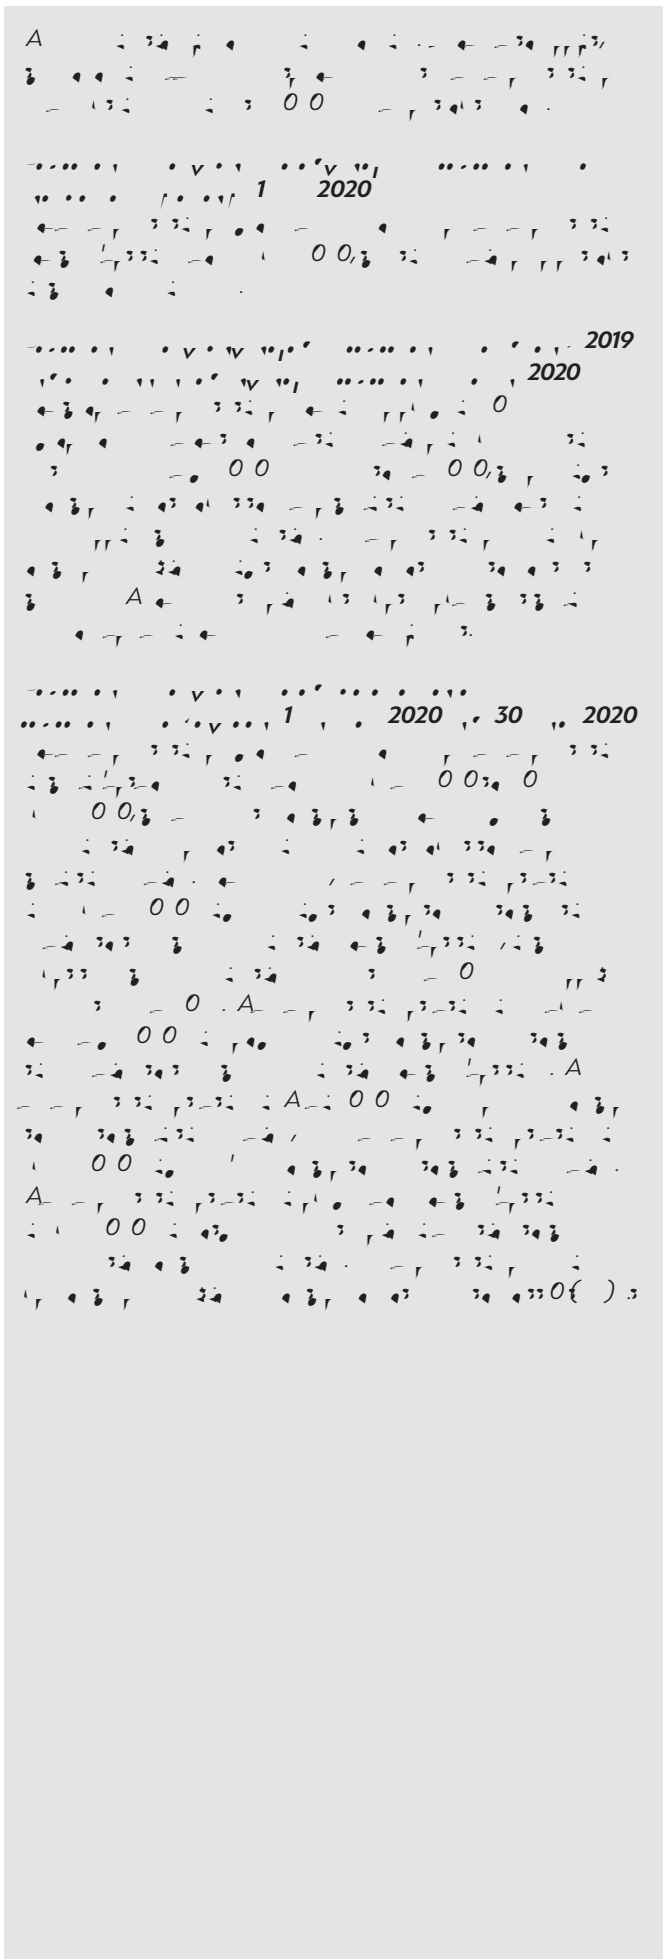

The certificate for events/meetings involving travel outside the UK must certify that the signatory has examined all the proposed arrangements and that, in their belief, they are in accordance with the relevant regulations relating to advertising and the Code.

8.6 (14.6) Companies must preserve certificates. Material in the form certified and information indicating the persons to whom it was addressed, the method of dissemination and the date of first dissemination must also be preserved. In relation to certificates for events/meetings involving travel outside the UK, details of the programme, the venue, the reasons for using the venue, the audience, the anticipated and actual costs and the nature of the hospitality and the like must also be preserved.

Companies must preserve certificates and the relevant accompanying information for not less than three years after the final use of the material or the date of the event/meeting and produce them on request from the MHRA or the PMCPA.

9.1

10

/

10.1 (22.1) Pharmaceutical companies may hold, sponsor or support delegates to attend a wide range of events/meetings, providing such events/meetings meet the requirements of the Code. This may include support of health professionals not known to the company via a healthcare organisation by way of registration fees, accommodation and travel.

Companies must not provide hospitality to health professionals, other relevant decision makers etc except in association with scientific meetings, promotional meetings, scientific congresses and other such meetings and training.

The content and arrangements for any event or meeting must also, to the extent relevant to the particular event/meeting, fulfil the following criteria:

- the event/meeting must have a clear educational content; it should be the programme that attracts delegates to attend and not the associated hospitality or venue
- the content must be appropriate and relevant to attendees

- the venue must be appropriate and should give to the main purpose of the event/meeting; lavish, extravagant or deluxe venues must not be used

- any associated subsistence (food and drink), accommodation and travel costs must be strictly limited to the main purpose of the event/meeting, must be of secondary consideration and must be appropriate and not out of proportion to the occasion (see Clause 10.7)

- companies must not sponsor, support or organise entertainment (such as sporting or leisure activities, etc)

- any hospitality provided must not extend to an accompanying person unless that person qualifies as a proper delegate or participant at the meeting in their own right. In exceptional cases of established clear health needs of the delegate (eg disability or injury), similar hospitality may be provided for an accompanying person.

10.2 (New Clause, previously 22.1 SI) No payment may be offered or paid to individuals to compensate merely for the time spent in attending events/meetings.

- 10.3** (New Clause and part of Clause 27.3) Sponsorship of patient organisations (including individuals representing patient organisations to attend events/meetings) must have a written agreement in place setting out what has been agreed including, where possible, a breakdown of agreed costs. (The requirements for the written agreement are set out in Clause 27.2.)
- 10.4** (18.3) Attendees of company organised events/meetings may be provided with inexpensive pens, pencils and notepads when required for use at those events/meetings. They must not bear the name of any medicine or any information about medicines but may bear the name of the company providing them. No individual attendee should receive more than one pen or pencil or one notepad.

 $\frac{1}{99} \times \frac{1}{99} = \frac{1}{9801}$
 $\frac{1}{100} \times \frac{1}{100} = \frac{1}{10000}$

12

12.1 (4.1) The prescribing information listed in Clause 12.2 must be provided in a clear and legible manner in all promotional material for a medicine except for abbreviated advertisements (see Clause 13). The prescribing information must be positioned for ease of reference and must not be presented in a manner such that the reader has to turn the material round in order to read it, for example, by providing it diagonally or around the page borders. The prescribing information must form part of the promotional material and must not be separate from it.

12.2 (4.2) The prescribing information consists of the following:

- the legal classification of the product
- the cost (excluding VAT) of either a specified package of the medicine to which the advertisement relates, or a specified quantity or recommended daily dose, calculated by reference to any specified package of the product, except in the case of advertisements in journals printed in the UK which have more than 15 per cent of their circulation outside the UK and audiovisual advertisements and prescribing information provided in association with them and
- i. the name of the medicine (which may be either a brand name or a non-proprietary name)
- ii. a quantitative list of the active ingredients, using approved names where such exist, or other non-proprietary names;

are recommended to consider the summary of product characteristics before prescribing.

The website referred to above must provide either:

the information set out in Clauses 12.2 and 12.3 (except that the non-proprietary name of the medicine or the list of active ingredients, as required by Clause 12.3, must appear immediately adjacent to the most prominent display of the brand name in a size such that the information is easily readable and information about cost, as required by Clause 12.2, need not be included on the website where the abbreviated advertisement appears only in journals printed in the UK which have more than 15 per cent of their circulation outside the UK), or the summary of product characteristics.

- 13.5** (5.5) The non-proprietary name of the medicine or a list of the active ingredients using approved names where such exist must appear immediately adjacent to the most prominent display of the brand name in bold type of a size such that a lower case 'x' is no less than 2mm in height or in type of such a size that the non-proprietary name or list of active ingredients occupies a total area no less than that taken up by the brand name.
- 13.6** (5.6) Abbreviated advertisements must include the prominent statement 'Adverse events should be reported. Reporting forms and information can be found at [website address which links directly to the MHRA Yellow Card site]. Adverse events should also be reported to [relevant pharmaceutical company]'.
- 13.7** (5.7) When required by the licensing authority, abbreviated advertisements must clearly show an inverted black equilateral triangle to denote that additional monitoring is required in relation to adverse reactions.
- It should be borne in mind that abbreviated advertisements must be no larger than 420 square centimetres in size. In abbreviated advertisements of no more than 310.8 square centimetres (A5), each side of the triangle should be no less than 3mm. In abbreviated advertisements larger than A5 (but no larger than 420 square centimetres) each side should be no less than 5mm. The other relevant requirements of Clause 12.10 apply equally to the use of the black triangle symbol on abbreviated advertisements.
- 13.8** (5.8) Abbreviated advertisements may contain a concise statement consistent with the summary of product characteristics, giving the reason why the medicine is recommended for the indication or indications given.
- 13.9** (5.9) Marketing authorisation numbers and references must not be included in abbreviated advertisements.

15

- 15.1** (9.4) Promotional material must not imitate the devices, copy, slogans or general layout adopted by other companies in a way that is likely to mislead or confuse.
- 15.2** (9.5) Promotional material must not include any reference to the Commission on Human Medicines, the Medicines and Healthcare products Regulatory Agency (MHRA) or the licensing authority, unless this is specifically required by the licensing authority.
- 15.3** (9.6) Reproductions of official documents must not be used for promotional purposes unless permission has been given in writing by the appropriate body.
- 15.4** (9.8) Postcards, other exposed mailings, envelopes or wrappers must not carry matter which might be regarded as advertising to the public, contrary to Clause 26.1.
- 15.5** (9.9) The telephone, text messages, email, faxes, automated calling systems and other digital communications must not be used for promotional purposes, except with the prior permission of the recipient.
- 15.6** (12.1) Promotional material and activities must not be disguised.

16

- 16.1** (28.1) Promotional material about prescription only medicines directed to a UK audience which is provided on the internet must comply with all relevant requirements of the Code.
- 16.2** (28.4) A medicine covered by Clause 16.1 may be advertised in a relevant, independently produced electronic journal intended for health professionals or other relevant decision

17

- 17.1** (15.1) Representatives must be given adequate training and have sufficient scientific knowledge to enable them to provide full and accurate information about the medicines which they promote.
- 17.2** (15.2) Representatives must maintain a high standard of ethical conduct in the discharge of their duties and comply with all relevant requirements of the Code.
- 17.3** (15.3) Representatives must not employ any inducement or subterfuge to gain an interview. No fee should be paid or offered for the grant of an interview.
- 17.4** (15.4) Representatives must ensure that the frequency,

Clauses 6 and 14 may also be relevant.

- 18.1** (7.1) Upon reasonable request, a company must promptly provide health professionals and other relevant decision makers with accurate and relevant information about the medicines which the company markets.
- 18.2** (7.5) Substantiation for any information, claim or comparison must be provided as soon as possible, and certainly within ten working days, at the request of health professionals or other relevant decision makers. The validity of indications approved in the marketing authorisation can be substantiated by provision of the summary of product characteristics.

20

(20)

- 20.1** Collaborative working which either enhances patient care or is for the benefit of patients or alternatively benefits the NHS and, as a minimum, maintains patient care is acceptable providing it is carried out in a manner compatible with the Code. Collaborative working is generally between one or more pharmaceutical companies, healthcare organisations and other organisations. Joint working is a limited form of collaborative working as set out in Clause 20.4.
- 20.2** Collaborative working, including its implementation, must have and be able to demonstrate the pooling of skills, experience and/or resources from all of the parties involved for the joint development and implementation of patient and/or healthcare centred projects. There must be a shared commitment to successful delivery from all parties, and each party must make a significant contribution.
- 20.3** In addition to Clause 20.2, collaborative working must:
- enhance patient care or be for the benefit of patients, or alternatively benefit the NHS and, as a minimum, maintain patient care
 - not constitute an inducement to health professionals or other relevant decision makers to prescribe, supply, recommend, buy or sell a medicine
 - be carried out in an open and transparent manner
 - be prospective in nature
 - be documented with a formal written agreement which is kept on record
 - have a summary of the collaborative working agreement publicly available before arrangements are implemented.

Material relating to collaborative working must be certified, including the summary of the collaborative working agreement. The collaborative working agreement does not need to be certified. Only the final documents etc for any collaborative working project need be certified. All documents etc issued during the development of the project should be of the same standard as certified material, but there is no requirement to certify such material. Material issued in the delivery of the collaborative working project must also meet the requirements of Clause 8.3, for example, educational material for the public or patients which relates to diseases or medicines issued during the delivery of collaborative working must be certified.

All collaborative working should adhere to all relevant

21

- 21.1** (17.1) Samples of a product may be provided only to a health professional qualified to prescribe that product. They must not be provided to other relevant decision makers.
- 21.2** (17.2) No more than four samples of a particular medicine may be provided to an individual health professional during the course of a year.

Samples of a particular medicine may be provided to a health professional for no longer than two years after that health professional first requested samples of it.

Notwithstanding the above, when a new medicine is marketed which is an extension of an existing product,

22

22.1 (13.4) Non-interventional studies that are prospective in nature and involve the collection of patient data must be conducted for a scientific purpose. They must comply with the following criteria:

there must be a written study plan (observational plan/protocol) and written contracts between the health professionals and/or the healthcare organisations, institutes, academic facilities etc where the study will take place and the pharmaceutical company sponsoring the study, which specify the nature of the services to be provided and the payment for those services

in countries where ethics committees are prepared to review scientific studies, the study protocol must be submitted to the ethics committee for review

any remuneration must be reasonable and reflect the fair market value of the work

the study must not constitute an inducement to prescribe, supply, administer, recommend, buy or sell any medicine

the company's scientific service must certify the protocol and supervise the conduct of the study

the study results must be analysed and summaries made available within a reasonable period of time to the company's scientific service, which shall maintain records of such reports; the summary report should be sent to health professionals who participated in the study. If the study results are important for the assessment of benefit/risk, the summary report should be immediately forwarded to the relevant competent authority

representatives may only be involved in an administrative capacity and such involvement must be supervised by the company's scientific service which will also ensure that the representatives are adequately trained for the role; such involvement must not be linked to the promotion of any medicine.

22.2 To the extent applicable, companies are encouraged to comply with Clause 22.1 for all other types of non-interventional studies, including epidemiological studies and registries and other studies that are retrospective in nature.

22.3 Companies must publish the summary details and results of non-interventional studies of marketed medicines in a manner consistent with their parallel obligations with respect to clinical trials, as set out in Clause 4.6.

Interactions with Health Professionals, Other Relevant Decision Makers, Healthcare Organisations, Patient Organisations and the Public, Including Patients and Journalists

CLAUSES 23–25

23

- 23.1** Donations and grants are funds, benefits-in-kind or services freely given for the purpose of supporting healthcare, scientific research or education, with no consequent obligation on the recipient organisation, institution and the like to provide goods or services to the benefit of the pharmaceutical company in return. Donations and grants to individuals are prohibited.

In general, donations are physical items, services or benefits-in-kind which may be offered or requested. Grants are the provision of funds.

- 23.2** (19.1 and 19.2) Donations and grants to healthcare organisations, patient organisations or other organisations are only allowed if they:

are made for the purpose of supporting healthcare, scientific research or education

do not constitute an inducement to recommend and/or prescribe, purchase, supply, sell or administer specific medicines

are prospective in nature

do not bear the name of any medicine although they may bear the name of the company providing them.

In addition:

there must be a written agreement in place for each donation or grant. The arrangements for the written agreement for donations and grants to patient organisations are set out in Clause 27.2 and for other organisations in the supplementary information to Clause 23.2

the written agreement, and where relevant, internal company and service provider instructions must be certified in advance as set out in Clause 8.3

all information relating to the donation or grant should be kept on record by the company

donations and grants must be publicly disclosed annually as set out in Clauses 28 and 29.

Company involvement should be made clear for donations and grants to the extent possible.

includes payments in relation to research and development work, including the conduct of clinical trials.

24.5 (23.3) In addition to the information required to be made public by Clause 24.4, companies must publicly disclose annually details of payments made to contracted individuals in relation to market research (unless the company concerned does not know the identities of those participating in the market research).

24.6 (23.4 and part of Clause 27.8) Fees, expenses and the like due to contracted individuals/organisations in relation to Clauses 24.3, 24.4 and 24.5 must be disclosed.

The relevant disclosure requirements are:

fees and expenses paid for contracted services between companies and institutions, organisations or associations of health professionals

fees and expenses paid for contracted services to health professionals and other relevant decision makers, or to their employers on their behalf

the disclosure for contracted services provided by each patient organisation must include:

- the total amount paid per patient organisation per calendar year, including a description of the services provided that is sufficiently complete to enable the reader to understand the nature of the services provided without the necessity to divulge confidential information

- fees and expenses should be disclosed separately

the disclosure for contracted services provided by members of the public, including patients and journalists, must include:

- the total number of members of the public contracted to perform services, the total amount paid to members of the public per calendar year and a description of the types of services provided that is sufficiently complete to enable the reader to understand the nature of the services provided without the necessity to divulge confidential information

- a breakdown of the total payments to each group of individuals, i.e. the public, patients and journalists, without the necessity to divulge confidential information.

In addition, companies should disclose fees and expenses separately.

Contracts for UK individuals representing patient organisations should be made with the patient organisation and disclosed against the patient organisation as set out in Clause 29.

- 25.1 (27.4) No company may require that it be the sole funder or sponsor of a healthcare organisation or patient organisation or any of its programmes.
- 25.2 (27.5) A company must not make public use of a healthcare organisation or patient organisation's logo and/or proprietary material without the organisation's written agreement. In seeking such permission, the specific purpose and the way in which the logo and/or proprietary material will be used must be clearly stated.
- 25.3 (27.9) Companies must ensure that all sponsorship is clearly acknowledged from the outset. The wording of the declaration of sponsorship must be unambiguous and accurately reflect the extent of the company's involvement and influence over the material.
- 25.4 (12.2) Market research activities, clinical assessments, post-marketing surveillance and experience programmes, post-authorisation studies (including those that are retrospective in nature), and the like must not be disguised promotion. They must be conducted with a primarily scientific or educational purpose.

Specific Requirements for Interactions with the Public, Including Patients and Journalists, and Patient Organisations

26

- 26.1** (26.1) Prescription only medicines must not be advertised to the public. This prohibition does not apply to vaccination and other campaigns carried out by companies and approved by the health ministers.
- 26.2** (26.2) Information about prescription only medicines which is made available to the public either directly or indirectly must be factual and presented in a balanced way. It must not raise unfounded hopes of successful treatment or be misleading with respect to the safety of the product.

Statements must not be made for the purpose of encouraging members of the public to ask their health professional to prescribe a specific prescription only medicine.

- 26.3** (18.2 SI) Items for patient support made available to patients, for example, by completing a request card enclosed with a medicine, should be inexpensive, related to either the condition under treatment or general health, and must be appropriately documented and certified in advance as required by Clause 8.3. Care must be taken that any such activity meets all the requirements of the Code and in particular Clause 26.4.

Companies cannot run or sponsor competitions or quizzes for patients if prizes are offered.

- 26.4** (26.3) Any material which relates to a medicine and which is intended for patients taking that medicine must include the statement below or a similar one:

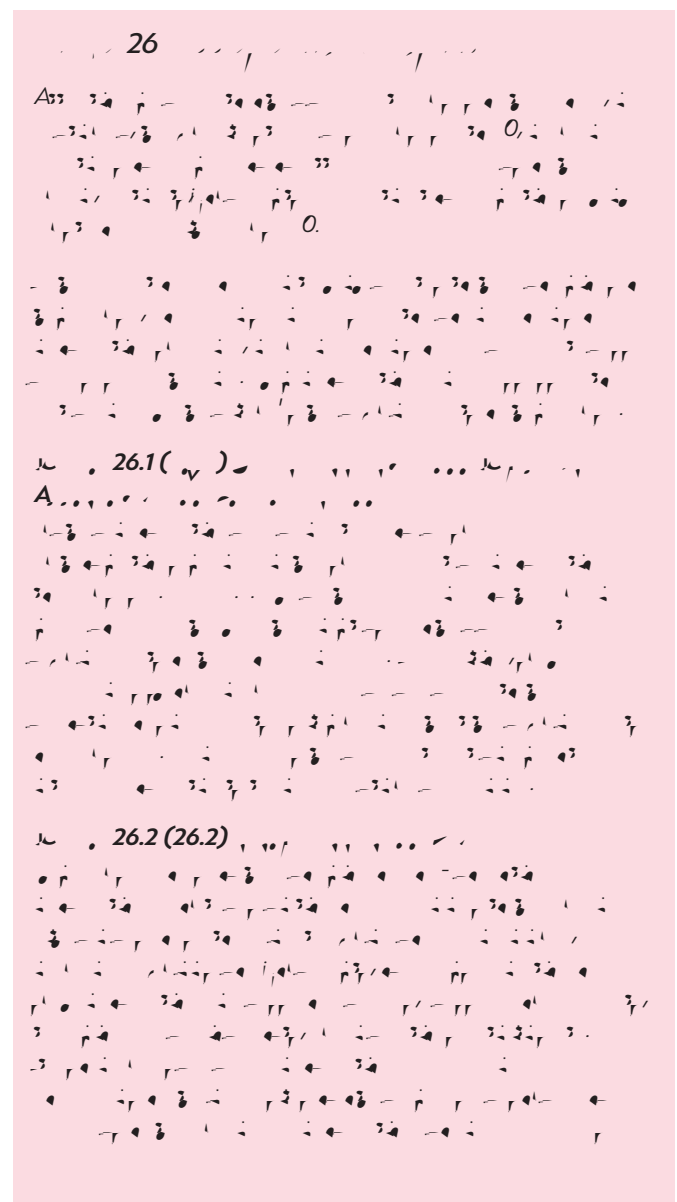

'Reporting of side effects' If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at [a website address which links directly to the MHRA Yellow Card site].

By reporting side effects, you can help provide more information on the safety of this medicine.'

When the material relates to a medicine which is subject to additional monitoring, an inverted black equilateral triangle must be included on it together with the statement below or a similar one:

'This medicine is subject to additional monitoring. This will allow quicker identification of new safety information. You can help by reporting any side effects you may get. See [a website address which links directly to the MHRA Yellow Card site] for how to report side effects.'

- 26.5** (26.4) Requests from individual members of the public for advice on personal medical matters must be refused and the enquirer recommended to consult their own doctor, or other prescriber or other health professional.

27

27.1 (27.1) When pharmaceutical companies interact with patient organisations or any user organisations such as disability organisations, carer or relative organisations and consumer organisations, companies must:

respect the independence of the organisations

assure the independence of the organisations, in terms of their political judgement, policies and activities

ensure relationships are based on mutual respect, with the views and decisions of each partner having equal value

not promote or request the promotion of a particular prescription only medicine

ensure the objectives and scope are transparent and support provided by companies must always be clearly acknowledged.

27.2 (27.3) When companies provide donations, grants or sponsorship (including of e

31.1 (v)

PRESCRIPTION MEDICINES CODE OF PRACTICE AUTHORITY CONSTITUTION AND PROCEDURE

..... 52

STRUCTURE AND RESPONSIBILITIES

1	A	53
2		53
3	A	

Introduction to the PMCPA Constitution and Procedure

OPERATIVE ON 1 JANUARY 2019

The Code of Practice for the Pharmaceutical Industry is administered by the Prescription Medicines Code of Practice Authority. The Authority is responsible for the provision of advice, guidance and training on the Code as well as for the complaints procedure. It is also responsible for arranging for conciliation between companies when requested to do so and for arranging for the scrutiny of advertising and meetings on a regular basis.

The Authority is not an investigatory body as such. It asks the respondent company for a complete response and may ask the parties to a case for further information in order to clarify the issues. It is essentially an adversarial process in which the evidence to be taken into account comes from the complainant and the respondent company, though the Authority can seek evidence from third parties where necessary. A complainant

Structure and Responsibilities

A

A

A

A

A

5 Action on Complaints

- 5.1 When the Director receives information from which it appears that a company (being either a member of the ABPI or a company which, although not a member, has agreed to comply with the Code and accept the jurisdiction of the Authority) may have contravened the Code, the Director must assign a member of the Authority (who may be the Director) to be the case preparation manager to process the matter and, if appropriate, prepare case papers for the Panel.

The case preparation manager must not divulge to other members of the Authority details of matters being processed until the formal case papers are provided to the Panel for consideration as provided for in Paragraph 5.5 below.

The Director is responsible for ensuring that the preparation of a case and the adjudication of it are carried out by different members of the Authority and must take steps to make certain that this separation is maintained in the event of absences of those involved.

The Director may delegate to a case preparation manager one or more of his/her responsibilities under this Constitution and Procedure when he/she considers it appropriate and necessary to do so.

The case preparation manager:

- determines whether a case should go before the Panel
- may invite evidence from third parties when considered to be appropriate even though the primary responsibility for

- 5.3 When the complaint is from a pharmaceutical company, the complaint must be signed or authorized in writing by the company's managing director or chief executive or equivalent and must state those clauses of the Code which are alleged to have been breached.

A complaint from a pharmaceutical company will be accepted only if the Director is satisfied that the company concerned has previously informed the company alleged to have breached the Code that it proposed to make a formal complaint and offered inter-company dialogue at a senior level in an attempt to resolve the matter, but that this offer was refused or dialogue proved unsuccessful. A formal statement detailing the actions taken must be provided. This requirement does not apply where the allegation is that a company has failed to comply with an undertaking that it has given and is in breach of Clause 29 of the 2019 Code (Clause 3.3 of the 2021 Code).

If, in the view of the Director, that condition has not been met, the complainant shall be so advised. If the complainant does not accept that view, the matter is referred to an independent referee identified by the Director and the Chair of the Appeal Board, for example a former independent member of the Appeal Board, for his/her determination which is final.

Attention is drawn to the availability of conciliation prior to making a complaint as referred to in Paragraph 18.2 below. Information about conciliation is available from the Director.

- 5.4 Upon receipt of a complaint, the company concerned has ten working days in which to submit its comments in writing.
- 5.5 When the respondent company's response is received, the case preparation manager must determine whether there is a prima facie case to answer under the Code. If, in the view of the case preparation manager, no prima facie case has been established, the complainant and the respondent company are so advised. If the complainant does not accept that view, the matter is referred to the Code of Practice Panel to determine whether or not there has been a breach of the Code. If the complainant submits further evidence, then the respondent company shall be invited to comment on that further evidence before the matter is referred to the Panel.
- 5.6 When a company advises the Authority that it may have breached the Code, the Director will treat the matter as a complaint. The company's response is invited. The case preparation manager may suggest the clauses of the Code to be addressed. When the response is received the procedure under Paragraph 5.5 above will be followed.
- 5.7 The parties must be notified that a case has been referred to the Panel.

6 Complaints Arising from Media Criticism

- 6.1 When it appears to the Director from media reports (other than letters to the editor of a publication) that a company may have breached the Code, the matter is treated as a complaint.

The author of the article, or the editor where no author is named, is treated as the complainant.

The author, or editor, is asked if they want to be involved in the case and whether they have any additional information to submit. The consequences of not being involved (no right of appeal and no right to comment on a respondent's appeal or the proposed text of the case report) must be explained in writing. If the author or editor declines involvement, this is stated in the case report.

- 6.2 A published letter from which it appears that a company may have breached the Code is dealt with as a complaint with the author being treated as the complainant. The procedure set out in Paragraph 6.1 above will be followed.

7 Code of Practice Panel – Rulings

- 7.1 Where the Panel rules that there is a breach of the Code, the complainant and the respondent company are so advised in writing and are given the reasons for the decision.

If the material or activity at issue is considered by the Panel to be likely to prejudice public health and/or patient safety, and/or it represents a serious breach of the Code, the Panel must decide whether, if there is subsequently an appeal by the respondent company, it would be required to suspend the use of the material or activity pending the final outcome of the case. If suspension would be required, the company must be so notified when it is advised of the Panel's ruling of a breach of the Code.

The respondent company has five working days to provide a written undertaking that the activity or use of the material in question and any similar material (if not already discontinued or no longer in use) will cease forthwith and that all possible steps will be taken to avoid a similar breach of the Code in the future. This undertaking must be signed by the managing director or chief executive or equivalent of the company or with his/her authority and must be accompanied by details of the actions taken by the company to implement the undertaking, including the date on which the material was finally used or appeared and/or the last date on which the activity took place.

In exceptional circumstances, an extension in the time allowed in which to respond may be granted at the discretion of the Director in accordance with Paragraph 14 below.

The company must also pay within twenty working days an administrative charge based on the number of matters ruled in breach of the Code.

- 7.2 Where the Panel rules that there is no breach of the Code, the complainant and the respondent company are so advised in writing and are given the reasons for the decision. Where the complaint is from a pharmaceutical company, the complainant must pay within twenty working days an administrative charge based on the number of matters alleged and ruled not to be in breach of the Code.

When advised of the outcome, the complainant will be sent

submitted for pre-vetting to be examined for compliance with the Code but it cannot approve such material. All of the costs of pre-vetting must be met by the company concerned.

The Appeal Board may also require an audit if a company repeatedly breaches the Code.

10.5 Where the Appeal Board rules that there is a breach of the Code, it may reprimand the company and publish details of that reprimand.

10.6 Where the Appeal Board rules that there is a breach of the Code, it may require the company to issue a corrective statement. Details of the proposed content and mode and timing of dissemination of the corrective statement must be provided to the Appeal Board for approval prior to issue.

11 Reports to the Code of Practice Appeal Board

11.1 Where the Panel reports a company to the Appeal Board under the provisions of Paragraphs 8.1 and 8.2 above, or where the Panel reports the failure of a company to comply with the procedures set out in Paragraph 9 above, or where the Authority reports the failure of a company to comply with the procedures set out in Paragraph 10 above, the procedures set out below shall apply. These procedures also apply if the Appeal Board, having received a report on a case completed at the Panel level, in accordance with Paragraph 4.1 above, considers that additional sanctions may be appropriate.

11.2 The company concerned is provided with a copy of the report prior to its consideration and is entitled to have a representative or representatives appear before the Appeal Board to state the company's case.

A company may not be represented before the Appeal Board by a representative who is also a member of the Appeal Board except with the consent of the Chair. Such consent may be given only if the member of the Appeal Board can satisfy the Chair that no other person within his/her company can properly represent it in the matter in question.

11.3 The Appeal Board may:

reprimand the company and publish details of that reprimand

require an audit of the company's procedures in relation to the Code to be carried out by the Authority and, following that audit, decide whether to impose requirements on the company concerned to improve its procedures in relation to the Code; these could include a further audit and/or a requirement that promotional material be submitted to the Authority for pre-vetting for a specified period; the Authority must arrange for material submitted for pre-vetting to be examined for compliance with the Code but it cannot approve such material; all of the costs of pre-vetting must be met by the company concerned

require the company to issue a corrective statement; details of the proposed content and mode and timing of dissemination of the corrective statement must be provided to the Appeal Board for approval prior to issue; require the company to take steps to recover items given in connection with the promotion of a medicine or non-promotional items provided to health professionals and members of the public and the like; written details of the action taken must be provided to the Appeal Board.

11.4 Where a company not in membership of the ABPI fails to comply with the procedures set out in Paragraphs 5, 7, 9 or 10 above and indicates that it no longer wishes to accept the jurisdiction of the Authority, the Appeal Board may decide to remove the company from the list of non member companies which have agreed to comply with the Code and advise the Medicines and Healthcare products Regulatory Agency that responsibility for that company under the Code can no longer be accepted.

The ABPI Board must be advised that such action has been taken.

12 Code of Practice Appeal Board – Reports to the ABPI Board

12.1 Where the Appeal Board considers that the conduct of a company in relation to the Code or a particular case before it warrants such action, it may report the company to the ABPI Board. Such a report may be made notwithstanding the fact that the company has provided an undertaking requested by the company has pro

objections. Any member in respect of whom there are valid objections must withdraw from the ABPI Board during consideration of the report. The President (or Chair of the ABPI Board in the absence of the President) determines whether objections are valid.

Members of the ABPI Board must declare any other interest in a report prior to its consideration. Having consulted the company representative(s) (if present), the President (or Chair of the ABPI Board in the absence of the President) determines whether it is appropriate for a particular member to remain for the consideration of the report.

- 12.4** Where a report is made to the ABPI Board under Paragraph 12.1 above, the company concerned is provided with a copy of the report prior to its consideration and is entitled to have a representative or representatives appear before the ABPI Board to state the company's case.

13 Case Reports

- 13.1** At the conclusion of any case under the Code, the complainant is advised of the outcome and a report is published summarising the details of the case.

- 13.2** The response of the respondent to the report is provided to the complainant and a copy is published summarising the details of the case.

14 Time Periods for Responding to Matters under the Code

The number of working days within which companies or complainants must respond to enquiries etc from the Authority, as referred to in the above procedures, is counted from the date of receipt of the notification in question.

An extension in time to respond to such notifications may be granted at the discretion of the Director.

15 Withdrawal of Complaints and Notices of Appeal

- 15.1** A complaint may be withdrawn by a complainant with the consent of the respondent company up until such time as the respondent company's comments on the complaint have been received by the Authority, but not thereafter.
- 15.2** Notice of appeal may be withdrawn by a complainant with the consent of the respondent company at any time but if notice is given by a complainant company after the papers relating to its appeal have been circulated to the Appeal Board, then the higher administrative charge will be payable.
- 15.3** Notice of appeal may be withdrawn by a respondent company at any time but if notice is given after the papers relating to its appeal have been circulated to the Appeal Board, then the higher administrative charge will be payable.

16 Code of Practice Levy and Charges

- 16.1** An annual Code of Practice levy is paid by members of the ABPI. The levy together with the administrative charges referred to in Paragraphs 7 and 10 above, the charges for audits carried out in accordance with Paragraphs 10.4, 11.3 and 12.2 above and the contributions to the cost of press advertisements referred to in Paragraph 13.7 above are determined by the ABPI Board subject to approval at a General Meeting of the ABPI by a simple majority of those present and voting.
- 16.2** Administrative charges are payable only by pharmaceutical companies and companies are liable for such charges whether they are members of the ABPI or not.

There are two levels of administrative charge.

The lower level is payable by a company which accepts either a ruling of the Panel that it was in breach of the Code or a rejection by the Panel of its allegation against another company. The lower level is also payable by a complainant company if a ruling of the Panel that there was a breach

18 Provision of Advice and Assistance with Conciliation

- 18.1** The Authority is willing and able to provide informal guidance and advice in relation to the requirements of the Code and, where appropriate, may seek the views of the Appeal Board.
- 18.2** Companies wishing to seek the assistance of a conciliator with the view to reaching agreement on inter-company differences about promotion may contact the Director for advice and assistance.

19 Amendments to the Code of Practice and Constitution and Procedure

- 19.1** The Code and this Constitution and Procedure may be amended by a simple majority of those present and voting at a General Meeting of the ABPI.

Notwithstanding the above, where a proposal to amend the Code or this Constitution and Procedure arises solely from the ABPI's obligation to comply with any code promulgated by the European Federation of Pharmaceutical Industries and Associations (EFPIA), then the ABPI Board may decide that formal approval at an ABPI General Meeting is not necessary. ABPI member companies must nonetheless be consulted in relation to the proposed texts of the changes.

- 19.2** The views of the Authority and the Appeal Board must be sought on any proposal to amend the Code or this Constitution and Procedure. The views of the Medicines and Healthcare products Regulatory Agency, the Competition and Markets Authority, the Serious Fraud Office, the British Medical Association, the Royal Pharmaceutical Society and the Royal College of Nursing must also be invited.

Notwithstanding the above, where the ABPI Board has decided, in accordance with Paragraph 19.1 above, that formal approval of the proposal at an ABPI General Meeting is not necessary, then the bodies referred to above need only be informed of the changes which are to be made.

- 19.3** The Authority and the Appeal Board may, in the light of their experience, make recommendations for amendment of the Code and this Constitution and Procedure.

20 Annual Report

An annual report of the Authority is published each year with the approval of the Appeal Board. This report includes details of the work of the Authority, the Panel and the Appeal Board during the year and provides a list of all companies ruled in breach of the Code during the year which specifically identifies those ruled to have breached Clause 2.

GUIDELINES ON COMPANY PROCEDURES RELATING TO THE ABPI CODE OF PRACTICE FOR THE PHARMACEUTICAL INDUSTRY

It is important for companies to have policies and standard operating procedures (SOPs) to communicate corporate standards, expectations and behaviour. These might be a mixture of global, regional and local SOPs. Company documents should support compliance, ensure consistency, manage risk and provide a platform for continuous improvement. It should be clear and apparent to all staff which requirements are relevant to their role. These policies and SOPs are minimum requirements which should be adapted to fit the arrangements at a particular company. The introduction of the new ABPI Principles should also be reflected where appropriate. The PMCPA will not adjudicate on the ABPI Principles.

Companies' Code related policies and procedures should be in line with the ABPI Code requirements, but of course, companies are fully entitled to have policies and procedures that impose higher standards than the ABPI Code. The ABPI Code reflects and extends beyond relevant UK legislation and ensures that the ABPI meets its commitments to implement other codes, such as the IFPMA and EFPIA Codes.

The guidelines, which are published on the PMCPA website, are regarded as best practice and should be adapted to fit in with the arrangements at any particular company. Paragraphs 10.4, 11.3 and 12.2 of the Constitution and Procedure for the PMCPA variously authorise the Code of Practice Appeal Board or the ABPI Board to require an audit of a company's procedures in relation to the ABPI Code to be carried out by the PMCPA. During such audits, the PMCPA will review a company's policies and SOPs and their implementation, including but not limited to those relating to the Code. A company's website may also be reviewed and should be kept-to-date and accurate at all times. It is likely that an audit would also include a discussion about the company's implementation of the ABPI Principles.

The guidelines do not cover all aspects of the Code and are therefore no substitute for a detailed study of the Code as a whole, including the supplementary information.
